

**To be attributed to an LNP spokeswoman:**

A vibrant music scene is critical for Queensland to thrive and the LNP is committed to reinvigorating our live-gig economy with support for businesses and by restoring safety.

The ability to offer safe, accessible live-music propositions right across Queensland has been stripped away under years of Labor mismanagement, after the failed Palaszczuk/Miles Government turned its back on our State's music economy.

The clear message from Queensland businesses, Councils, venues, restaurants, residents and musicians is they want a plan to breathe life back into our music industry and night-time economy.

Labor is too busy marching to the beat of their own chaos and crisis to notice fewer police and weak youth crime laws have turned down the volume on Queensland's gigs.

An LNP Government will lead the way with dedicated portfolios to support CBD Activation.

We will continue to engage with QMusic to build on regional tourism and community engagement into the future.

We're committed to a thriving Queensland music industry, and only voting 1 LNP on Saturday will guarantee Queenslanders who love great music the Fresh Start they deserve.
